OUTLINE C. OF C. WORK

Chamber of Commerce Tells  
What It Has Done and  
Gives Its Program

Do it for Appleton!

With this slogan, the program for Appleton's Civic Week opened Sunday morning with special services at all churches, the theme of the sermons being "Civic Righteousness." Meetings and dinners, at which Dan Weigle, St. Paul, America's leading community engineer, will speak, are scheduled every day this week, with the purpose of instilling into Appleton's citizens a more intense community spirit and converting them into more active workers for the development of the city.

A united community meeting of all churches, was held at Lawrence Memorial chapel at 3:30 Sunday afternoon, at which Dan Weigle delivered his opening address of the week, his subject being "The Soul of Appleton."

Monday morning he spoke to students of Appleton high school on "Obligations of Citizenship," in which he pointed out the obligation which students are under to the community to make good. He told them that 50 percent of the city's taxes goes toward defraying the cost of their education and showed that if they failed to take advantage of the opportunity which was offered them, they are doing the community as well as themselves an injustice. Mr. Weigle commanded the attention of the students with the clarity of his address, clearly demonstrating his power and ability as a community worker.

**TALKS AT NOON**

Members of the Lions, Rotary and Kiwanis club heard Mr. Weigle speak on "The Community Clearing House," at a joint meeting at Conway hotel Monday noon. A loving cup was to be presented by the Chamber of Commerce to the club having the largest per centage of attendance.

The chamber of commerce board of directors and members of committees will meet Mr. Weigle at a dinner at Conway hotel at 6:15 Monday evening. Accomplishment of the Appleton Chamber of Commerce in the past and its program for the future are outlined in letters sent out to members of the organization Monday. The accomplishments are listed as follows:

Cooperated with the city and school officials in planning and building the Junior high school.

Cooperated with city officials, school officials, Trades and Labor council and other organizations in persuading the state legislature to pass the statute enabling Appleton to adopt a unified school system.

Cooperated with the city officials in planning and building Memorial and Lawrence bridges.

Cooperated with city and county officials to secure cooperation of Winnebago county officials in attaining a southern outlet from Memorial bridge.

**HELPED HOME BUILDING**

Conducted campaign to encourage building of more homes, as a result of which more than 1,000 new houses were erected during the past five years.

Encouraged the erection of new buildings, including the Insurance building, Bretschneider Furniture Co., Wickmann Furniture Co., Brandt garage, Whelan building, St. Elizabeth hospital and many others.

Cooperated with city officials in employing Leonard Smith, city plan engineer, whose plan for Appleton was adopted by the city council, as was the city zoning ordinance, also worked out by Mr. Smith.

Initiated the idea of the new system of street numbering which was adopted and new street signs erected by city officials.

Advised city to tourists going through by feature articles in various magazines of nationwide circulation, by publishing a small Appleton booklet, and by inviting and entertaining numerous conventions and in many other ways.

Was largely instrumental in developing and fostering a spirit of good fellowship and cooperation among businessmen, manufacturers and professionals.

LOSES \$940, GOES  
INSANE BY WORRY  
THEN IT'S FOUND

Chicago—(AP)—Jozef Bartofz, La Salle, lost a wallet containing \$940 and a \$100 Polish government bond while visiting in Chicago. His despair was so great that five days later he was in the state hospital for the insane at Peoria, unknowing that the money had been found in a taxicab, and several hundred dollars expended in newspaper advertising in an endeavor to discover the owner. The mystery was cleared when the cab company received a letter from the superintendent of the hospital stating that a man of the same name was in the institution hopelessly insane.

PUSSYFOOT GETS  
HECKLED AGAIN"How About Drinking Na-  
tions?" Young Men Ask  
Greatest Boozie Foe

New York—(AP)—William E. (Pussyfoot) Johnson, who has many times been the object of heckling in his prohibition address, has had another "set to" with wet opponents.

His talk at the West Side Young Men's Christian association Sunday ended in some confusion when hecklers propounded a series of questions after the main address, which met with protests from drys present.

Johnson "Didn't King George of England give his approval to the use of beer for working men of Great Britain?" was one question. Mr. Johnson did not admit this, but said working people of America brought about prohibition.

"If as you claim, the majority of the nations of Oriental countries have always been for prohibition, how is it that they are backward nations?" was another question. Before Mr. Johnson could answer, the questioner interposed:

SLINGER BREWERY IS  
RAIDED; FOUR NABBED

Milwaukee—(AP)—The source of real beer in Milwaukee was said to have been cut off when federal agents raided the Storck Products company at Slinger, Wis., Sunday. Henry Storck, president of the company and three truck drivers are to appear in court late Monday for arraignment.

The Storck company applied for a permit to operate and was refused by Robert Sterling, then prohibition chief here. The company started suit in federal court to have the refusal overruled and a temporary injunction was issued against interference with their "legitimate activities." For a month the brewery operated under the injunction.

GRAZING QUESTION IS  
FINALLY AGREED UPON

Washington, D. C.—(AP)—Final agreement on the question of regulating grazing on the public domain was reached in a conference today between Chairman Stanford of the senate lands committee and Secretary Work.

"Merry Widow" Waltz,  
Dirge By His Request

London—(AP)—Amid music, including strains from "The Merry Widow Waltz," the coffin of Alexander M. Carlisle, famous shipbuilder and friend of the former Kaiser, was taken from the chapel at the Golden Green crematorium today to the furnace chamber for cremation. The ceremony was arranged by Mr. Carlisle himself a few weeks ago when he knew that end was near.

He paid for his own cremation and had the certificate framed. He also

HOUGHTON TO  
BE GUIDE IN  
ARMS PARLEYAwkward Political Situation

Washington, D. C.—There is more than passing significance in the announcement that Alanson B. Houghton, American ambassador to Great Britain, is coming home to confer about policies relating to the American government's participation in the forthcoming arms conference to be held under the auspices of the league of nations.

In the first place Mr. Houghton was really the guiding spirit in the negotiations prior to the conference at Locarno which marked such a forward step in European affairs. He did not participate in so many informal conversations that he is credited with having exerted an extraordinary influence on the settlement reached.

This was due to two reasons:

First, Mr. Houghton represented an influential government.

Second, he had been ambassador at Berlin and was also familiar with the viewpoint of London.

**WILL BE ADVISOR**

Mr. Houghton will not have any official position in the forthcoming disarmament conference, but he will play an important role as if he were an envoy for he will be at the seat of the British government and will be in constant contact with the American delegation at Geneva. He has already done a great deal of work in informal parleys with the officials of the British government. Indeed it is believed that before the disarmament conference begins the American ambassadors at Berlin, Rome, Paris and London will have reached tentative understandings with the principal governments as to the policies to be pursued at the conference.

The particular reason for Mr. Houghton's visit, however, is to decide on the instructions to be given the American delegation. Congress authorized for an American mission to participate only in the so-called preparatory conference, but the question of attending the later conference is still open. Mr. Houghton originally was a member of the house of representatives and may be able to clear away doubts that some members may have as to what should be the scope of American policy.

## CONSIDERED TACTFUL

Incidentally there's an awkward political situation in New York state. The Republicans there are disturbed because the empire state has no representative in the president's cabinet. Mr. Houghton is considered tactful in matters political, in fact so much so that he came home from Berlin in the 1924 campaign and made several speeches in western states which the republican managers today feel helped materially in swinging large numbers of voters of German descent to the Republican ticket.

Mr. Houghton is a close friend of Charles D. Hilles, Republican national committeeman of New York who recommended him originally to the president. If Mr. Houghton, on his visit, can bring Mr. Hilles and the White house closer together in the interests of Republicanism in New York state, several of the national managers who are uneasy over the situation will be greatly relieved in mind.

MEANS ACCOMPLICE  
DENIED AN APPEAL

Washington—(AP)—Thomas B. Field, New York lawyer, convicted of a crime conspired with Gaston B. Means and others to bribe government officials was refused an appeal today by the supreme court.

There were no formal religious rites, no hymns and no prayers. About a dozen mourners were in the chapel, including Mr. Carlisle's daughter and Baroness Von Versen. In the midst of the unusual ceremony she collapsed.

CRUMBLING OF  
LEAGUE SEEN  
IN DEADLOCKGermany Firm in Refusal to  
Allow Seating of Other  
Nations

Genova—(AP)—The meeting of the league of nations, called to elect Germany to membership, today seemed to find its life prolonged far beyond the brief period which it had been predicted would be required for the purpose.

A serious deadlock developed on the eve of the meeting among the representatives of the major Locarno treaty signatory powers, who were unable to reach an accord on the conditions under which Germany would enter the league and have a permanent seat in the council with the other permanent members—Great Britain, France, Japan and Italy.

**MANY SEEK SEATS**

Germany maintained her attitude against granting any other nation but itself a permanent seat in the council at the same time it should be admitted. Poland, Spain, Brazil and China all pressed their claims for seats.

This was heightened by the French cabinet crisis which served to reduce M. Briand's prestige and to cause a stiffening in German attitude. Spain announced that if she were not selected to a permanent seat, with Germany, she would resign from the league. Spain is now a non-permanent member. The situation was admitted by all parties to be serious.

**GERMANS FIRM**

A meeting Sunday of the foreign ministers of Germany, France, Great Britain, Belgium, Poland, Spain, Czechoslovakia and Sweden, called in endeavor to obtain from Germany the concession which would admit Spain to a non-permanent seat at the regular session of the assembly in September, was futile.

Germany was inflexible in refusing to accept any obligations in advance as to what it would do when elected to the council.

Reliable information indicates that so profoundly has the situation provoked by the scramble for places on the council affected world conditions, the Valentin has intervened unofficially in support of the candidacy of Spain, Brazil and Poland, as Catholic countries.

ILLINOIS CHEMISTS  
DISCOVER ELEMENT

Urbana, Ill.—(AP)—Discovery of one of the five unknown chemical elements was announced today by the University of Illinois, the work of Dr. R. S. Hopkins, professor of inorganic chemistry, assisted by L. F. Yates and J. A. Harris of the chemistry staff. It is the first time such a discovery ever has been made in this country.

The new element is known in the chemistry world as No. 61. Eighty-seven of the possible 92 simple substances known on the earth which make up all compounds that exist previously had been isolated and identified. It is the combination of these various elements that make up matter.

EASTERN STATES FEAR  
MILD FLU EPIDEMIC

Albany, N. Y.—Two deaths and reported appearance of the disease in four new centers of New York state were today's developments in what the state department of health believes is a mild recurrence of the influenza epidemic which swept the country in 1918. Nearly 2,000 cases have been reported.

Binghamton, hardest hit of any community thus far, reported the two deaths. Five hundred cases of influenza, in a mild form have been reported in Gloversville.

Bilings, Mont.—(AP)—When the Bilings municipal band started weekly practice on the top floor of the city hall Sunday, a prisoner in the cell house in the basement became insane. The man, arrested for vagrancy Saturday began to jump up and down yelling. Later he began to sing and pray.

The band was playing, "How Dry I Am."

BRIAND ASKED  
TO LEAD AGAINProspects of Coalition Min-  
istry Looms Following  
Cabinet Downfall

Paris—(AP)—The political situation points to a ninth cabinet under Aristide Briand, should he care to accept the offer which the majority of those consulted by President Doumergue believe will be forthcoming.

Paris—(AP)—Determined efforts will be made to induce Aristide Briand to form another ministry. He succeeded the one defeated in the chamber of deputies early Saturday on a proposed sales tax. Such, it is understood, has been the outcome of conversations between M. Herriot, president of the left in the chamber, and President Doumergue.

Herriot does not disguise his regret over the defeat of Briand, which he says he would have done his utmost to prevent had he been in the chamber. The unfavorable impression created abroad by the resignation of the ministry has not been without effect on those favoring Briand. It is being pointed out in political circles that it was Briand's finance minister, rather than Briand who will be defeated in the chamber, the premier falling with him because he declined to abandon his colleague. In any case all political circles agree that Briand must retain the portfolio of foreign minister.

As an alternative there is the prospect of a coalition ministry, leaning more to the right than that of Briand and headed by either Joseph Caillaux, M. Monzie or M. Peret.

RAILROAD SPONSORING

A LONG NAME FOR  
A SHORT CONDITION

"Nonproductive" is the long name. And if you have ever had vacant rooms which are not producing rent, you know what the "short" condition is.

But you don't need to be short for long.

There is a simple way of getting roomers. You really don't need to be short a call.

Just do like Mrs. E. Arnold, 802 N. Appleton street, and hundreds of other Appleton people, have done. Mrs. Arnold rented three rooms very easily by using a Post-Crescent "To Rent" ad. And others are doing it all the time.

Call our ad-taker at 543 and obtain these same good results for yourself.

Miss Bertha Vorbeck, 1722 N. Oneida-st., was selected as Miss Appleton Venus, and Miss Elizabeth Wadsworth, 100 N. Green Bay-st., was awarded second place among 15 candidates in the American Venus beauty contest sponsored by the Appleton Post-Crescent and Fischer's Appleton theatre. Four girls the winners and two others, Miss Evelyn Dowan of Kimberly, and Miss Sally Sorenson, 1321 N. Drew-st., were selected from the entire group on Friday night. Final selection of Miss Appleton Venus was made Saturday.

Miss Vorbeck's proportions, although they did not correspond exactly to Miss Fay Lanphier, American Venus, chosen at the national contest at Atlantic City last summer, were very good, the judges said. Her height, weight and age are in proportion, and her other measurements are in proportion with them. It was declared. Miss Vorbeck is 18 years of age and is 5 feet 3 1/2 inches tall.

The second winner, Miss Wadsworth, is employed as kindergarten teacher at the Fourth ward school. Her height and weight more nearly correspond to Miss Lanphier's than Miss Vorbeck's did, but her other measurements were not all in proportion. Miss Wadsworth is 5 feet 5 1/2 inches tall.

Miss Vorbeck rated excellent in both walking and standing posture, very good in general appearance and good in facial expression.

She will be crowned as Miss Appleton Venus by Mayor John Goodland at the showing of "The American Venus" motion picture at Fischer's Appleton theatre on Tuesday, Wednesday and Thursday nights. In addition she will receive \$50 in gold from the sponsoring organizations as a reward for her physical perfection. Miss Wadsworth will be given an American Venus sash valued at \$40.

The other candidates in the contest were Miss Elsie Wright, E. Wisconsin-ave.; Miss Babe Darga, 122 N. Bennett-st.; Miss Cecile Weiland, 312 W. Prospect-st.; Miss Sylvia Gilsdorf, 314 E. Wisconsin-ave.; Miss Martha Brockhaus, 734 E. Hancock-st.; Miss Florence Karis, 420 S. Mason-st.; Miss Coretta Pyhrman, 614 E. Franklin-st.; Miss Barbara Sorenson, 1321 N. Drew-st.; Miss May Hamilton, 522 W. Columbia-ave.; Miss Myrtle MacKenzie, 424 S. River-st.; Miss Leone Brock, 424 S. River-st.; Miss Laura Doerfler, 1020 W. Eighth-st.; Miss Myrtle Froehlich, 1710 N. Appleton-st.

Judges in the contest were Miss Dorothy Vestal, physical education instructor at Appleton high school; Miss Blanche Burrow, physical education instructor at Lawrence college, and Mrs. John Engel, Jr. Each candidate was measured by the judges and the decision was made from the personal appearance of the girls rather than the photographs.

The measurements of Miss Fay Lanphier, when she won the Atlantic City contest were: height 5 feet 6 inches, weight 128 pounds, bust 34 inches, neck 13 1/2 inches, arm 10 inches, waist 26 1/2 inches, hips 37 1/2 inches, thigh 20 inches, calf 13 1/2 inches, ankle 8 inches. Miss Vorbeck's measurements were: height 5 feet 3 1/2 inches, bust 33 inches, weight 133 pounds, neck 12 1/2 inches, bust 32 inches, hips 36 inches, waist 24 1/2 inches, thigh 19 1/2 inches, calf 13 1/2 inches, ankle 7 1/2 inches.

Miss Wadsworth's measurements were: height 5 feet 5 1/2 inches, weight 129 1/2 pounds, neck 12 inches, bust 33 inches, hips 35 inches, waist 26 1/2 inches, thigh 20 inches, calf 13 1/2 inches, ankle 8 1/2 inches.

EARLY SALES INDICATE  
BOOST IN ORE PRICES

Duluth, Minn.—(AP)—There will be an advance in ore prices this year the Duluth Herald announced in a front page story today, quoting what it calls "reliable sources in Cleveland," as authority. That the advance will be at least 25 cents a ton, the Herald says, is indicated from first reports, which state that some sales at the new prices have already been made.

WATER DIVERSION  
SUIT AUTHORIZED

Washington, D. C.—(AP)—Michigan was granted permission Monday to file a supreme court suit against Illinois and the sanitary district of Chicago to restrain the further diversion of water from Lake Michigan. Michigan announced it would insist that neither congress nor any federal or state agency had authority to divert waters from the Great Lakes basin into any other watershed.

W. ALEXANDER, 76,  
DIES IN FLORIDABody of Prominent Badger  
Business Man Enroute to  
Wausau Home

Wausau—(AP)—Walter Alexander, 76, one of the best known men in the state, prominent for many years in the political and social affairs of Wisconsin and the nation, died early Sunday at Miami, Fla., where he has been spending the winter. The funeral cortege left Miami Sunday night for Wausau. Funeral arrangements will be made after the arrival here.

Mr. Alexander was born in Scotland in June, 1849. The family came to America in 1854 and settled in Portage county and engaged in farming. Alexander spent much time in Wausau with his uncle, the late Hon. Walter D. McIndoe. He received an education in the Wausau schools later attending Ripon college.

**WAS MILL PARTNER**

Ending his school days he entered the saw mill of Mr. McIndoe and worked there 15 years before becoming a partner. After the death of Mr. McIndoe, the business was continued by John and Alexander Stewart and three years later, the firm became the Alexander Stewart Lumber company with Mr. Alexander as a partner and later manager.

Active in almost every business venture in central Wisconsin, Mr. Alexander also had large lumber holdings and business connections in the south and northwest. He was president of the Marathon county bank, president of the Wausau Paper Mills company, vice president of the American National bank of Wausau, a former director of the First National bank of Milwaukee and a director of the Wisconsin Valley Electric company.

## DECLINED OFFICES

During his lifetime he took an active interest in politics, but declined to accept public office, beyond serving in the city council and accepting in 1900, against his will, the position of delegate to the national republican convention, an honor that came to him again when President Taft was a candidate for renomination the last time. He was then the only stalwart on the Wisconsin delegation and was termed by President Taft, "my one lamb from Wisconsin."

NEWS SERVICE GROUP

New York—(AP)—The work of the 80,000 men and women who gather and distribute news for the associated Press will be explained tonight from broadcasting stations throughout the country by executives and editors of the cooperative news gathering organization.

LATE WINTER  
STORM BRINGS  
STATE TIEUPAppleton Digs Out from Under  
Blanket; Warmer Weather  
or Predicted

MINNESOTA WORST HIT

Upper Peninsula Traffic Par-  
alyzed by Season's Most  
Extensive Snow

Although enough snow fell Saturday and Sunday to give Appleton residents plenty of exercise in wielding shovels, the storm was not heavy enough to tie up railroad or street car traffic. Trains were arriving in Appleton on scheduled time Saturday and the local and interurban lines of the Wisconsin Traction, Light, Heat and Power company were kept open with little difficulty.

Four above zero was recorded on the Schaefer Hardware company thermometer at 7 a. m. Monday, but the mercury rose steadily during the morning. At noon the snow was thawing rapidly. The temperature early Sunday morning was above zero. A possibility of spring rain arriving is seen in the weather map prediction of fair and warmer for Tuesday.

## WOMEN MAROONED

Ashtabula—(AP)—A dozen women were marooned for 16 hours in the untenable here by the blizzard which raged here Saturday and Sunday. They struggled through the drifts to the depot Saturday night, but the trains scheduled to leave at that hour did not pull out until the next afternoon. While they waited the storm became worse and the women were unable to leave the depot. A boy fought his way through the storm and brought back coffee.

## PREDICTS SPRINGTIME

Milwaukee—(AP)—A bit of springtime is to follow the cold snap which Sunday caused Milwaukee and southern Wisconsin to become a sheet of ice, the cause of many accidents Saturday and Sunday. A good imitation of a blizzard, while in the southern section, rain and sleet caused no end of difficulties to traffic.

Ironwood, Mich.—(AP)—Street car service abandoned late Saturday night had not been renewed at noon today and indications were that the street cars would not operate until this evening. The storm which struck Wisconsin Saturday and blazed early this morning was the worst here in 23 years. Trains trying to reach here have to use two locomotives.

## PENINSULA PARALYZED

Marquette, Mich.—(AP)—Railroad and automobile traffic was virtually paralyzed in the upper Michigan peninsula Monday by the winter's worst storm which buried the district under snow from two to three feet deep. The snowfall started early Saturday night. A high wind drifted the snow and railroads are having great difficulty clearing their tracks.

## SUPERIOR—(AP)—A six-foot deep snowdrift saved the life of Walter Seacotte, grocery truck driver during the height of the worst snow storm of the winter Saturday. He was thrown from his truck on a crossing by the Northwestern evening train, as it was gathering speed. The snow at that hour was blinding and Seacotte was traveling slowly. He came through unscathed.

By Sunday midnight, traffic in Superior was practically back to normal. Trains Monday were all on time. Railways Saturday and Sunday spent thousands of dollars battling drifts.

## GOPHER ROADS BLOCATED

St. Paul—(AP)—Minnesota slowly crept from under an eight inch blanket of snow today to face lower temperatures. Highways, made impassable by the heavy snowfall of Saturday and Sunday, generally open to bus traffic into Wisconsin, Iowa, and South Dakota were completely tied up by the storm. Heavy drifts formed under the pressure of a high wind Sunday night constituted a serious difficulty today. One thousand persons marooned in Milaca during a basketball tournament Saturday night were able to return to their homes today.

# CITY MUST HAVE. SOUL IF IT WANTS TO FORGE AHEAD

Soul-less City Is Dead, Community Evangelist Tells Crowd in Chapel

"When a man comes to the point where he forgets God, his fellow men, and the blessings of his community and lives only for himself he has lost his soul," declared Dan Weigle, St. Paul, minister of the famous "Community Evangelist" in an address on "The Soul of Appleton" at the Civic Sunday church meeting Sunday afternoon in Lawrence chapel. It was the opening event of Appleton's great civic week program March 7 to 13. Mr. Weigle will be in the city the entire week to conduct the community civic program sponsored by the Appleton Chamber of Commerce. "No one in Appleton can live for himself alone, as his happiness and future prosperity is dependent on the law of self sacrifice, the law of giving and not that of taking," continued Mr. Weigle.

**CIVIC SOUL.**  
The speaker showed that Appleton has a soul of its own, which is the aggregate of the souls of its 23,000 inhabitants. Appleton is not built of bricks and steel, he said, but is human, and it is the duty of the churches of the city to see that the soul of Appleton is properly fed and nurtured, for the success of the city depends on this all important factor.

Mr. Weigle said the difference between a live and prosperous community and a "dead" town is that the former truly had a soul, while the latter either never had a soul or had lost it through material greed because the inhabitants had forgotten God who endowed their community with such copious blessings.

**NAMES TRIUMVIRATE.**  
The speaker pleaded for a closer cooperation between the great triumvirate of religious, educational and business interests in a community. To enter the prosperous business man is frowned upon by his less wealthy neighbors and regarded as being too materialistic and money grasping but it is these big men of business who by their efforts make possible the churches, schools and other blessings of the American city. The business men in turn must depend upon the church to turn out the right kind of employees for them, declared Mr. Weigle—employees who are honest, loyal and who have enough imagination and vision to look into the future. A man of vision is one who knows that the Appleton of the future will be greater than the Appleton of the past, he said.

Mr. Weigle urged that religion be tempered with education and vice versa. The present tide of educationism without religion is causing many young Americans to become modernists and liberalists who are going about attempting to shatter the religious faith of others. He warned against religion leading to fanaticism, a thing which is brought about by religion not being tempered with any education.

"The man who makes a success in life has what is known as soul power, while the man who is a failure lacks this thing," declared the civic worker. "This soul power is the basis of efficiency and a happy life, and it can be received by those who pray for it in good faith. A city with a soul reaches its goal," Mr. Weigle said.

**HOW SOUL IS FED.**  
The soul is nurtured on such intangible things as art, music and spiritual truths revealed in the Bible and a person who does not care about these things should be worried for he is in grave danger of losing his soul, the speaker said. "Man's success is dependent upon how his soul is fed. A soulless town cannot compete with a town in which there are active churches and people with soul power. God has always won out and He always will."

Mr. Weigle stated that as long as 51 per cent of the people put back into community life more than they take out, the town will thrive and prosper but as soon as the tables are turned and 51 per cent of the people take out more than they put back the community will be classed as a

dead town. The "community evangelist" said he hoped to awaken a realization of community service which will express itself in civic work and the weeks following. He said that although his work was connected primarily with material things, the principles of religion were the basis of every material success.

**BASING ON RELIGION.**  
The building of America is based upon the foundation stone of religion. Mr. Weigle said, and there is no city in America which would amount to anything if it did not have church. The speaker showed that the teachings of the church and Sunday school should be applied to every day life. He deplored the present general apathy and indifference toward churches in many communities, saying that this attitude made it impossible for a preacher to carry out the plans he would like to see accomplished in the town because of his lack of money and church workers.

"Appleton will prosper in the future to the degree in which the souls of her inhabitants are fed and the support given to the churches of the community. A live city will continue to believe in the God of our forefathers—George Washington and Abraham Lincoln," concluded Mr. Weigle.

The program was opened with an organ prelude, "The Swan," played by La Valin Maesch, which was followed by the singing of "America" by the audience led by Dr. Earl Baker. The invocation was pronounced by the Rev. H. A. Bernhardt, pastor of Emmanuel Evangelical church. A quartet from the Methodist church sang "I Will Extol Thee" and this was followed by the reading of the scripture by the Rev. H. E. Peabody, pastor of First Congregational church. Mayor John Goodland, Jr., gave a short talk on civic week, urging all citizens to support the project and invited everyone to attend at least one of the meetings. The speaker was introduced by J. D. Frank, general chairman of civic week. After Mr. Weigle's address the audience sang The Battle Hymn of the Republic and the benediction was said by the Rev. Henry S. Gately, rector of All Saints Episcopal church. The Rev. Virgil Scott, pastor of Memorial Presbyterian church, was chairman of Civic Sunday and presided at the meeting.

**BEG PARDON.**  
It has been stated in the Wednesday Post-Crescent that the Sandy Slope School District Number 6, had 2 days vacation due to the inability of the teacher to reach the school. This statement was not correct as the teacher of that school was there.

**BEWARE THE COUGH OR COLD THAT HANGS ON.**  
Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. Creomulsion Company, Atlanta, Ga. adv.

Mr. Weigle stated that as long as 51 per cent of the people put back into community life more than they take out, the town will thrive and prosper but as soon as the tables are turned and 51 per cent of the people take out more than they put back the community will be classed as a

dead town. The "community evangelist" said he hoped to awaken a realization of community service which will express itself in civic work and the weeks following. He said that although his work was connected primarily with material things, the principles of religion were the basis of every material success.

"Appleton will prosper in the future to the degree in which the souls of her inhabitants are fed and the support given to the churches of the community. A live city will continue to believe in the God of our forefathers—George Washington and Abraham Lincoln," concluded Mr. Weigle.

The program was opened with an organ prelude, "The Swan," played by La Valin Maesch, which was followed by the singing of "America" by the audience led by Dr. Earl Baker. The invocation was pronounced by the Rev. H. A. Bernhardt, pastor of Emmanuel Evangelical church. A quartet from the Methodist church sang "I Will Extol Thee" and this was followed by the reading of the scripture by the Rev. H. E. Peabody, pastor of First Congregational church. Mayor John Goodland, Jr., gave a short talk on civic week, urging all citizens to support the project and invited everyone to attend at least one of the meetings. The speaker was introduced by J. D. Frank, general chairman of civic week. After Mr. Weigle's address the audience sang The Battle Hymn of the Republic and the benediction was said by the Rev. Henry S. Gately, rector of All Saints Episcopal church. The Rev. Virgil Scott, pastor of Memorial Presbyterian church, was chairman of Civic Sunday and presided at the meeting.

Mr. Weigle said the difference between a live and prosperous community and a "dead" town is that the former truly had a soul, while the latter either never had a soul or had lost it through material greed because the inhabitants had forgotten God who endowed their community with such copious blessings.

**NAMES TRIUMVIRATE.**  
The speaker pleaded for a closer cooperation between the great triumvirate of religious, educational and business interests in a community. To enter the prosperous business man is frowned upon by his less wealthy neighbors and regarded as being too materialistic and money grasping but it is these big men of business who by their efforts make possible the churches, schools and other blessings of the American city. The business men in turn must depend upon the church to turn out the right kind of employees for them, declared Mr. Weigle—employees who are honest, loyal and who have enough imagination and vision to look into the future. A man of vision is one who knows that the Appleton of the future will be greater than the Appleton of the past, he said.

Mr. Weigle urged that religion be tempered with education and vice versa. The present tide of educationism without religion is causing many young Americans to become modernists and liberalists who are going about attempting to shatter the religious faith of others. He warned against religion leading to fanaticism, a thing which is brought about by religion not being tempered with any education.

"The man who makes a success in life has what is known as soul power, while the man who is a failure lacks this thing," declared the civic worker. "This soul power is the basis of efficiency and a happy life, and it can be received by those who pray for it in good faith. A city with a soul reaches its goal," Mr. Weigle said.

**HOW SOUL IS FED.**  
The soul is nurtured on such intangible things as art, music and spiritual truths revealed in the Bible and a person who does not care about these things should be worried for he is in grave danger of losing his soul, the speaker said. "Man's success is dependent upon how his soul is fed. A soulless town cannot compete with a town in which there are active churches and people with soul power. God has always won out and He always will."

Mr. Weigle stated that as long as 51 per cent of the people put back into community life more than they take out, the town will thrive and prosper but as soon as the tables are turned and 51 per cent of the people take out more than they put back the community will be classed as a

1925 in cases in which his deputies participated, and 602 of the cases were reported as pending. Jail sentences aggregating 341 months were imposed. In Outagamie-co, eight cases are pending, according to the report and no jail sentences were imposed.

**\$2,000,000 COLLECTED.**  
The approximate amount of fines collected in 1925 for all violations of the state prohibition act, or Severson law, is \$400,000, which with the \$1,574,779 collected since the law went into effect in July, 1921, makes a grand total of nearly \$2,000,000. Most of the cases pending probably have been disposed of, Mr. Gunderson said, but no word has been received from district attorneys as to their disposition.

"These cases include only the cases in which one or more of the state deputies have participated," the commissioner said. "It does not in-

clude raids and inspections made by federal men, chiefs of police, sheriffs and others, unless they were accompanied by a deputy prohibition commissioner, or unless the evidence was analyzed by a deputy prohibition commissioner."

Winnebago-co had only seven arrests, three cases pending, no jail sentences, and \$1,550 collected in fines. Brown-co had 42 arrests, four cases pending, a jail sentence of seven months, and \$7,050 collected in fines. Milwaukee-co had the most cases and collected the most fines, reporting 281 arrests, and \$27,900 in fines, but Barron-co had the greatest aggregate of jail sentences with a total of 59 months imposed.

## CORNELL LOSES TALK TILT HERE

Lawrence College Debators Even Count With Iowa Speakers

Lawrence college affirmative debaters secured revenge for the 2 to 1 win which the Cornell team registered over the Lawrence team on the Western trip last year by defeating the Cornell negatives speakers Friday night at the Conservatory by a unanimous decision. The question involved repeal of the eighteenth amendment. The Lawrence team was composed

of Gordon Clapp, Ellsworth, Win Bird, River Falls, and Dan Hardt, Neenah. Win Bird was the only debater on the team which Cornell defeated last year. Mr. Clapp did not make the trip to the coast, and Mr. Hardt was not in school.

The Cornell speakers were Theodore Bech, Leo Huach, and Russell Cooper. Judges were President Sims of the Stevens Point Normal school, Judge Haase of Marinette, and Prof. Troutman of the department of public speaking of Carroll college.

One more decision contest is on the Lawrence schedule, Pullman college of Washington sending a two-man team to Appleton on April 12. George Christensen, Oshkosh and Dan Hardt, Neenah, will comprise the Lawrence team for this debate.

**STOCK EXCHANGE PAROXYSM**  
Wall Street is going through one of its periodical paroxysms. Stocks tumble five or ten points in one day, and millions of dollars are made and lost. The next day the bears are temporarily routed, and more millions are made and lost. The bedlam was started by the refusal of the Interstate Commerce Commission to approve the Nickel Plate merger. Not much of an excuse, when we bear in mind the fact that the commission's decision does not prevent the merger, in fact recommends it, but insists upon equitable treatment of the minority stockholders.

That the Van Schwering incident was not the real cause of the smash is proved by predictions of responsible bankers weeks ago that the market was headed toward the rocks. There are no true cycles in stock movements. In reality they have no relation to business conditions. The only reason stocks are absurdly high during a depression is because conditions are so bad they cannot be overcome by artificial means. All inflations of the market, and the present crisis is an inflation, are the creation of professional gamblers. Nobody ever claims that the prices of securities on the stock exchange, whether high or low, has anything to do with real values.

That is the reason why Mr. Mellon says the crash in the market will not impair national prosperity. It is the reason why Mr. Hoover says, "Its effect will be wholesome," and Senator Smoot adds that it will not affect business adversely. They are right. Business rests on an entirely different foundation than the New York stock exchange. They have little in common. The exchange is essentially a gambling institution. It is America's greatest Monte Carlo.

**NEED MORE TRAINING**  
Lady Cathcart has won her legal fight to enter the United States. In order to secure entrance she has been subjected to the humiliation of a sixteenth century inquisition. She has been detained at Ellis Island for a considerable period, and she has had a fortnight of unpleasant notoriety and many other annoyances.

That there was not even a technical legal straw on which to exclude her in the beginning is disclosed by the court's decision. It would seem that the immigration goggle-eyes in administering the law ought to know what the law is. And then we have the vaudeville picture of the secretary of labor spending a week "looking up the law," and not being able to find the simple proposition on which Federal Judge Bondy sustains a writ of habeas corpus. The immigration authorities must be a competent lot, to say nothing of the exercise of judgment.

Every day in the United States men and women commit worse offenses than the Countess Cathcart admitted, and their escapades are capitalized in motion picture productions and other commercial exploits. We have gone so far in this country in moral laxity, in the lowering of social standards, that we have no right to take exception to the standards of others, particularly so when there is no law under which we can excuse ourselves for doing it. We would suggest that the immigration authorities and the department of labor be given a course at some prep law school.

**JURIES THAT JUDGE**  
France is engaged in a legislative battle over the adoption of what would amount to an absolute revolution in legal

proceedings, and one that if successful will be heard round the world. That is a bill giving juries the power, in association with the judges, to sentence criminals.

Like American juries, those in France have grown hopelessly sentimental. Courts have become the field for a game in which the jury is an interested bystander watching the antics of a poor state prosecutor attempting to overcome a general prejudice against an ogre called the judge and a monster called the law. Murderers, there as here, are pitied and freed to murder again.

To the logical French mind the answer to all this is irresponsibility. The judge is too much of a separate entity, and so is the law. The jury doesn't feel it has any particular stake in what is going on except to let its emotions take their course. So the French parliament is attempting to change the juror's state of mind from that of a spectator to that of an actor. It is trying to identify him with the administration of the law by providing that the judges, as soon as a prisoner has been found guilty, shall sit in with the twelve jurymen in a common panel and together with them pronounce judgment.

This would not relieve the jury of its sole responsibility of determining the facts. It would simply place in the back of that jury's mind the consciousness that the state regarded each member of the panel as an officer of justice. Perhaps the effect would be to incline frivolous French juries to dodge this responsibility by rendering practically universal verdicts of "not guilty." But at any rate the attempt, if the bill is adopted, will be worth watching.

**DO NOT LOVE OUT LOUD**  
Richard F. Grant of Cleveland, the soft coal operator who shut himself up for three days with the anthracite miners and operators and is credited with the success of the final strike settlement, has coined as the result of his experience a phrase worthy of repetition. It is "loving out loud."

His only fear during the strenuous days of mediation, he said, was that "some friends of the people would have a heart-break and start loving out loud and spoil the party." In his opinion true love is silent, not vociferous; and when it begins to shout itself from the housetops, or from the senate rostrum in the form of an effusion from a Senator Copeland, for example, we are given to understand that he doubts its motives. He condemns "these great lovers of America who want to do their loving out loud and would capitalize the distress of our people for personal reasons."

The phrase has a far broader application, however, than to coal strikes. A good seoffer might introduce it with telling effect in such self-perpetuating bureaus at Washington as those which are supposed to look after children and Indians better than parents and the Indians themselves can. These bureaus have been "loving out loud" and drawing salaries for it until they have acquired an excellent professional technique.

**HOW IS YOUR GALL PRODUCTION?**  
The discovery of "weak nerves" and "lack of red blood" by the nostrum gentry has eased the strain on the liver somewhat in the last few years. No longer can the medicine monger move the goods by simply shouting "It's your liver" to the sucker crowd. Nowadays no matter how bilious a man may be he is from Missouri.  
I don't know what the health authorities of Missouri are telling Missourians about this liver business—if they are telling anything—but the health authorities of another state have recently issued a bulletin in which they tell the simple lady what biliousness is—why, er, well, everybody knows what biliousness is. This reminds me of the ever ready simple lady about "colds"—they evade defining what "colds" are by passing the buck to the lady. "Everybody knows" a good many things about health and hygiene which ain't so.  
Here you have on your stomach an oversupply of bile. Well, what is the sensible thing to do in such a dire emergency? Why, take something to make your liver produce still more bile. A bit of the hair that dogs you.  
If the really beneficent and much maligned liver ever does produce an excess of bile, one need lose no meals over it, for the excretory or drainage system is entirely competent to take care of any such hypothetical overflow, if things are normal. If things are not normal, then it is a bootless and sometimes a dangerous policy to take calomel or any other alleged liver stimulant or bile driver (chologogue).  
Physiological fact is that calomel is not a bile driver, not a chologogue, has no particular effect upon the function of the liver.  
In the last year or two much has been heard in medical and veterinary circles about "non-surgical drainage of the gall bladder," a procedure introduced by Lyon. This is a method of inducing the ejection of bile from the gall sac into the intestine, and the discharge of the bile is brought about by the injection of magnesium sulphate solution (Epsom salts) into the duodenum through the duodenal tube which is a revised, refined and attenuated edition of the old time stomach tube or, as the old time reporter always called it, "stomach pump." Many good clinicians have employed the Lyon method of gall bladder drainage with apparently good effect in cases of chronic cholecystitis or gall bladder inflammation. But the soundness of the principle on which it is based has been questioned on what would seem to be solid grounds, and if this liver business intrigues you, watch for our next one man debate on the subject.

**CHURCH SCHOOL AT FOREST JCT. PRESENTS PLAY**  
Production Is Almost Postponed Second Time by Unfavorable Weather

Special to Post-Crescent  
Forest Junction—Postponed on account of inclement weather from Feb. 25, Kate Douglas Wiggin's dramatization of her story, "The Old Peabody Pew," was presented at Zion Evangelical church on Monday evening.  
The plot centers about the reunion of Miss Nancy Wentworth, played by Elsie Freitag, and her long absent lover, Justin Peabody played by Pearl Seybold, at the "old Peabody pew" in a New England church, all of which furnishes food for gossip by the Dorcas society of the church.  
Suitable introductory and closing speeches were furnished by a reader, Miss Frances Huebner. Besides the hero and heroine, Mrs. Leonard Seybold appearing as members of the cast were Mrs. Baxter, minister's wife; Arena Kloebe as Mrs. Burbank, president of the Dorcas society; Lucille Huebner as Mrs. Miller, wife of Deacon Miller, the sexton; Mabel Knoepfel as Mrs. Sargent, a village historian; Frances Stanelle as the widow Buzzell, willing to take a second risk; Clara Kloebe as Isabella Brewster, who is no lover of men; and Bertha Loefer as Maria Sharp, quick of speech.  
The play was given under the auspices of the Helping Hand Bible class of Zion Evangelical church school. Miss Clara L. Haese, as teacher of the class, directed the presentation. It was well rendered and a second performance has already been requested for the benefit of those who were unable to attend the first.

**Brewing Up a Little Discord**  
**FOES OF CITY MANAGER ARE ACTIVE IN KENOSHA**  
Kenosha—A determined effort to have the city manager form of government abandoned here is being made by friends of the aldermanic system.  
Petitions which have been in circulation were to have been filed Wednesday, the last day for filing referendum petitions for the coming spring election, but those who are back of the move are said to have received legal advice that when the city manager plan was adopted it was stipulated that call for a special election could be made at the end of four years. The city manager plan will not have been in effect four years until after the spring elections.  
Fear that his technicality might prove a stumbling block has led to delay, but it is anticipated that if the required number of signers are obtained—about 2,200—the petitions will be filed in April.  
If the vote sustains the present government the question cannot be brought up again.

## U. C. T. And Women Pick 1926 Leaders

## PHONOGRAPH RECORDS OF NO VALUE FOR MARCHING

"At present there is no scientific and little pedagogic value" in the records used for school marching, writes Professor John Ross Frampton of the faculty of the Lawrence Conservatory of Music in the current issue of "School Music."

In his article entitled "Phonographic Records for School Marching," Prof. Frampton criticizes the metronomic inaccuracy of the records used for school marching and declares that their "main worth is their sales value to dealers and manufacturers."

## Women's Happiness

Rests largely on solving their oldest hygienic problem this new way—true protection; discards like tissue

To be fresh and charming every day, to live every day unhandcapped, to wear sheerest frocks without a second thought, any day, anywhere... you can now do all, a new way.

It is called "KOTEX." Ends the insecurity of the old-time sanitary pad. Five times as absorbent! Deodorizes, too. And thus ends ALL fear of offending.

NO LAUNDRY  
✓ As easily disposed of as a piece of tissue. No laundry. No embarrassment.

You get it at any drug or department store simply by saying, "KOTEX"; you ask for it without hesitation.

Costs only a few cents. Eight in 10 better-class women employ it. Proves the unnecessary risk of old ways.

KOTEX  
No laundry—discards like tissue

A contest for the Charleston championships of the Fox River valley was started Sunday evening at the Underella ball room. Every Sunday evening during the month the best Charleston couple, the best woman Charleston dancer and the best man Charleston performer will be selected and these will compete in the finals on the evening of Sunday, April 11. The semi finals will be held Easter Sunday, April 4.

The four winners in each event will be awarded silver loving cups, those taking second place will be given gold medals and those placing third will receive silver medals. The winners will be entitled to enter the contest now being planned for Milwaukee.

## ASK MILWAUKEEAN TO MEET WELFARE CLUBS

The Rev. M. F. McAvoy, Milwaukee, a noted social welfare authority, will be asked to speak to welfare workers here March 23. It was decided at a meeting of representatives from various social agencies of the city Saturday evening in the Appleton Chamber of Commerce. It is expected that Father McAvoy will discuss the advantages of a social case worker to Appleton. The meeting probably will be held in the auditorium of the vocational school. The welfare committee of the chamber of commerce and health committee of the Better Cities center were represented at the meeting.

## TREASURER IS GETTING READY TO CLOSE BOOKS

Fred E. Bachman, city treasurer, will make his annual return of county taxes and of the local uncollected taxes soon. The return of the state tax was made by him on Wednesday. Strictly speaking, there was no state tax to turn over, for the state administration had remitted this tax to Wisconsin taxpayers. Nevertheless, the usual special charges upon the county, of which Appleton must pay its share, were collected. These amounted to \$4,207 this year as compared with \$3,376 last year. In 1925 the city collected a state tax proper of \$33,924 in addition to the special charges, but the city was saved this amount this year through the remission of state taxes.

## \$15,000 FIRE AT CHURCH PLANS KAUKAUNA RUINS SWERDLOW STORE FOR NEW TOWER

Fireman Overcome by Smoke, Is Ordered to Bed by Physician

Kaukauna—A \$15,000 fire early Sunday morning destroyed the Yellow Front shoe store on Second-st. The building was owned by Sam Swerdlow who conducted a retail shoe shop. The building is totally ruined and undoubtedly will be torn down. All the furniture and stock in the building was burned.

The fire department received the first call to the store at about 12:45 Sunday morning and both fire trucks were sent out. According to Captain Henry Ester of the fire department the fire started in the basement of the store from an unknown cause and rapidly ascended the walls, gaining a foothold on the roof before the firemen could get it under control. After an inspection of the building by Ester the fire department left, apparently believing the fire to be out. Again at 4 o'clock A. Luckow, fire chief and Ester went through the building and everything seemed all right.

J. Buechel passed the building about 45 minutes later and noticed that the fire had started again. He immediately put in another call to the department and when the fire trucks arrived the building was in a blaze. The first time it had only been necessary to cut a hole in the roof to get at the fire with the water, but the second time a cut had to be made around the whole roof, which was of tin. The middle part of the roof sagged in and made it doubly hard to fight the blaze. As it was dangerous for the fire fighters to get on it, a strong wind blew all the smoke into the faces of firemen. It was impossible to save the stock and firemen tried to prevent the fire from spreading to other buildings. The damage was estimated at from \$15,000 to \$20,000.

Fireman C. Engerson who was overcome by smoke was at the firehouse Sunday morning but as he reached his home he fell unconscious. A doctor who was summoned said Engerson was choking from the smoke that was in his throat and lungs. He was ordered to bed.

## MULFORDS HELP TROOP OF SCOUTS

Athletic Club Permits New Troop to Use Its Club-house

Kaukauna—The Mulford Athletic club of Kaukauna has offered Troop No. 1 of the Kaukauna boy scouts the use of its clubhouse until the scout log cabin is built. The Mulford club house is a pretty building located on the south bank of the Fox river back of the municipal building. Meetings of this troop will be held there on Tuesday evenings until permanent club rooms have been arranged for.

Troop No. 1 is the non-sectarian boy scout troop of the city and any scouts wishing to affiliate themselves with this troop are to be present at the next regular meeting of the troop Tuesday evening March 9. Elmer Ott of Lawrence college is scoutmaster and Milton Metz is his assistant.

All of the new troops soon to be organized will be associated with parochial schools of the city.

J. F. Cavanaugh, superintendent of schools, Olin Dwyer, principal of the high school and W. Sullivan, high school instructor, are cooperating with Ott in reorganizing Troop No. 1.

## MADISON MAN TALKS TO SCOUT ORGANIZERS

Kaukauna—A dinner will be given at 8:15 Tuesday evening in the dining room of the Congress hotel for all the townspeople who are interested in boy scout work. Prof. R. S. McGaffery of the University of Wisconsin has been secured as the principal speaker of the evening. Mr. McGaffery is an authority on boys' work and boy scout activities. Plans will be made for organization of the new scout troops in the city. These new troops are to be associated with various parochial schools of Kaukauna. Paul Kelcher, valley scoutmaster, also will give a talk on scout work. It is expected about 150 people will attend the dinner.

## TWO CHOIRS COMBINE TO SING IN CANTATA

Kaukauna—An Easter cantata will be sung by the combined choirs of the Methodist and Reformed churches of this city on Palm Sunday at the Methodist church. The same cantata will be presented in the Reformed church Wednesday of Passion week. Bazaar is being held every Sunday afternoon.

A treat indeed is ENZO JELI, adv.

## Green Bay Architect Completes Drawing of Improvement at Reformed Church

Kaukauna—Plans have been completed by Clarence Jahn, Green Bay architect, for building a new front on Immanuel Reformed church. The plans, with the specifications, will be presented to the church members at a meeting of the congregation shortly after Easter.

The proposed new front will be built after the gothic style of architecture and will be built to a large extent the present building. The present tower will be torn down and a new gothic tower will replace it. The new tower would be to the left of the present front which will be extended out to the front sidewalk. The church now sits back about fifteen feet from the sidewalk.

The balcony will be enlarged twice to its present size and there will be seating accommodations for 150 people. The church auditorium will be made larger and 48 seats will be added. In the basement there will be rooms for the Sunday school, and the auditorium will be used for church services only. Along the front of the building there will be a wide corridor from which entrances will lead to the auditorium and another one to a room for mothers and babies. From this room a stairway will lead up to the balcony. This will provide for the two stairways required by the Wisconsin building code. At present there is only one stairway.

If the plans are accepted by the congregation the Ladies' Aid society will buy new dark oak pews to match the new furniture on the rostrum.

## Social Items

Kaukauna—Approximately forty men attended the banquet tendered the Brotherhood of Andrew and Philip of the Reformed church by the Ladies' Aid society. Forty new members were received into the organization. A paper on "The History of the Reformed church in the United States," was read by the Rev. E. L. Worthman. It was decided that at the next regular meeting Edwin Sager should read a paper on "The History of the Reformed church in Wisconsin."

Elks Ladies held their regular meeting Friday afternoon in the Elks hall on Second-st. Cards furnished entertainment for the afternoon. Mrs. Homer White was hostess.

MRS. PRATT DIES  
Kaukauna—Mrs. G. W. Pratt of Oakfield, 84, died Thursday morning at the home of her daughter, Mrs. S. J. Cooke of Oakfield, according to word received by Mrs. H. S. Cooke of this city. Mrs. Pratt was the grandmother of Mrs. W. Henry Cooke, formerly of Kaukauna.

The funeral was held at 2 o'clock Saturday afternoon in the Oakfield Methodist church.

## DELIVERS LECTURE ON GERMAN PASSION PLAY

Special to Post-Crescent  
Fremont—The Lutheran Ladies' Aid society held its monthly meeting at the parochial school Wednesday afternoon. The Rev. Ervin Schmidt gave a lecture on the Passion Play of Oberammergau, Germany, which was illustrated with motion picture slides. Twenty-one members and two visitors were present.

The ladies auxiliary of the Union church held its semi-monthly meeting at the home of Mrs. Edwin Sager, Thursday afternoon. Relatives and friends of Mr. and Mrs. John Heartfield were entertained at their home last Sunday evening, the occasion being Mr. Heartfield's fifty-sixth birthday anniversary.

Miss Lily Sader entertained the Women's club at her home Tuesday evening. Five hundred was played with people seated at four tables. ## ROTARY FROLICS AT CLINTONVILLE HARD TIME FETE

Doctor Outbids Rest in Auction of Pig and Offers It to Club for Roast

Special to Post-Crescent  
Clintonville—in spite of the inclement weather Monday evening, a large number of Rotary members and their wives assembled in Odd Fellow hall for a hard time party. Dinner was served by members of the Rebekah lodge.

M. R. Stanley of Shawano gave a talk on Rotary Ethics. W. A. Olen recited a poem, "The Old Canoe." Lines were sharply drawn as to apparel worn, and that not in harmony with the occasion subjected the wearers to fines ranging from 1 to 33 cents. They were imposed on about 25 guests. William Schultz acted as collector. Four Rotarians were dressed as women and performed some fancy dancing "stunts." The first prize, a 25-pound sack of flour, was awarded to Mrs. A. C. Cather, dressed as a boy in overalls. The men's first prize went to Dr. Finney, and consisted of a jar of honey. The doctor impersonated a tramp. The prize for the most appropriately dressed couple also went to Dr. and Mrs. Finney.

An auction on a little pig was announced and A. A. Washburn acted as auctioneer. After a lively contest it was "knocked off" to the highest bidder, Dr. Finney, at \$4.75, who turned it back to the club for a roast at a future dinner. Dancing and games concluded the entertainment.

George Hoffman, Deer Creek transferred business in the city Saturday. Misses Dora and Ada Bentzler spent a few days at Wausau this week.

August Kronberg suffered a fracture of his right foot at the same Sunday when a can of milk fell on it.

Mrs. Earl Siebert, who has been seriously ill, is reported to be recovering.

Mrs. Gustave Prochnow, New London, returned home Saturday after a three weeks visit with her parents in.

## BANKER SPEAKS AT CHILTON H. S.

Explains to Pupils the Functions and Advantages of Banking System

Special to Post-Crescent

Chilton—William E. Stauss, cashier of the Commercial bank, gave the first of a series of talks before the high school assembly on Thursday morning.

The banks of the state are carrying on a campaign to give the people of each community a more extended knowledge of the uses of banks. They plan to extend this knowledge by having bank presidents, cashiers or other officers talk to the high schools throughout the state.

Mr. Stauss explained the functions of money, and showed the disadvantages of barter, stating that there was no possibility of large commerce under this system.

He also explained the advantages of money as a medium of exchange, it being a common denominator for all values, and concluded his talk by explaining the functions of a bank in a community.

Mrs. A. F. Stein entertained the Ladies Aid society of Trinity Presbyterian church on Thursday afternoon. The Ladies Aid society of the Ebenezer Reformed church met in the church hall on Thursday afternoon, the hostesses being Mesdames Arthur Balcock, Louis Siegrist and Henry Westphal.

The Ladies' Aid society of St. Martin's Lutheran church met in the church hall on Thursday afternoon. St. Margaret guild met in the Guild hall on Thursday afternoon, and supper was served by Mrs. John Huntz, Mrs. Walter Kurtz and Mrs. G. M. Morrissey.

At a meeting of the Junior class of the Chilton high school on Wednesday, the following officers were elected: President, Maria Schmidt; vice president, Paul Fox; secretary, Amelia Bonk; treasurer, Jane Oberbiling.

William Portman of Kiel was a business visitor in Chilton on Wednesday.

## SCHOOL CAGERS DROP HARD TILT

Lose to Clintonville 22 to 6 on Latter's Floor Friday Night

New London—The high school basketball team was overwhelmed by the Clintonville high school quintet 22 to 6, when the two teams clashed for their second game of the season last Friday night at the northern city. The game was one sided all through the four periods. Clintonville scoring time and again on long shots, which gave them the points. The score at the end of the first quarter was 5 to 4 for Clintonville, 13 to 2 at the half and 14 to 5 at the end of the third period. New London scored only one free throw during the last period, while the Clintonville aggregation piled up eight more, bringing the tally up to 22 to 6.

The local scoring was done by two Red and White players. Ladwig bringing in two free throws and a ringer, while Dermback managed to slip in another ringer. The game was looked forward to with much anxiety by local fans, as Clintonville and New London meet for their first game of the district tournament next Thursday night. As Clintonville has now defeated the Red and White twice this season, the outcome of the tournament game is skeptical. The Red and White may stage a comeback, however, when the two teams meet on a neutral floor.

## WISCONSIN DEATHS

PETER JAECKELS  
Special to Post-Crescent

Chilton—Peter Jaekels, formerly of this city, died at the home of his son in West Bend Friday morning at the age of 54 years.

Mr. Jaekels was born on a farm near St. John in 1872 and he remained there until he grew to manhood. At the age of 21 he was married to Miss Anna Pochs of Chilton town, and shortly afterward they moved to Chilton, where for many years he was employed in a brewery.

Six children were born to them, four sons and two daughters, all of whom survive. They are Clement of Minneapolis, Mrs. Albert Janssen of Minneapolis, Joseph of East Wrightstown, Claude of Marinette, William of West Bend and Mrs. George Dickinson of Minneapolis. Mrs. Jaekels died about 18 years ago. There are also two brothers surviving, Jacob of Sheboygan and Math of this city. The body was brought to this city on Saturday morning where it will lay in state until Monday morning, when the funeral was held from St. Mary's church at 9 o'clock. Burial was in St. Mary cemetery, where his wife also is buried.

been placed under quarantine, one of the children being ill with scarlet fever.

Miss Leone Lampert went to Milwaukee on Friday afternoon to spend the weekend.

Lawrence Lleyd of Minneapolis, Minn., was called to this city by the serious illness of his mother.

STAGE  
And  
SCREENSCREEN PLAY FROM NOVEL IS  
SUCCESS

It is easy enough to understand why motion picture producers are looking for good books and plays after having seen "The Man Who Came Back," the William Fox screen version of John Fleming Wilson's novel, at the New Bijou Theatre today for four days. The book was a success and the stage play by Jules Eckert Goodman run on Broadway for more than a year, but the picture surpasses them both. It would, for the obvious reason that the studios offer greater facilities, but added to this advantage, there is excellent directing and nearly perfect acting.

George O'Brien in the title role and Dorothy Mackaill in the principal feminine part, are remarkable and they have the support of a powerful cast in one of the most alluring stories that Wilson ever did. And he wrote many good ones.

"The Man Who Came Back" is a waster—a young prodigal with plenty of money and an indulgent father. The story of his fall, along Broadway and later on the Barbary Coast in San Francisco—and still later as a derelict in Shanghai is one of the most dramatic ever brought to the screen. Then the story of his "come-back," influenced by a girl, is equally as powerful and has in beauty what the first part of the narrative has in emotion.

It is a picture worth seeing and it should rank among the biggest of the year, to judge from opinion at the New Bijou Theatre this afternoon.

"WINDS OF CHANCE" FILM HIT  
OF SEASON

Presenting an accurate, virile and colorful romance of Alaska and its pioneer days, Frank Lloyd's "Winds of Chance" opens at the Bijou Theatre today for a 4 day engagement.

"Winds of Chance" is one of the few pictures with the power to sweep one virtually off his feet. Moving along at a startling pace, this latest First National epic combines the elements of scenic beauty and spirited action without slackening its pace, and there are so many celebrities in the cast that the reviewer feels that it is a ten entertained by a club composed of stars only.

More than any picture it has been our pleasure to see in several years, "Winds of Chance" deserves the distinction of being an all-star production. It is. And all of the stars in it share about as equally as it is possible for so real a drama to divide honors. Ann Q. Nilsson, Viola Dana, Ben Lyon and Victor McLaglen are the principal quartet in the picture, but there is very little to choose between their parts and those of Hobart Bosworth, Dorothy Sebastian, Claude Gillingwater, Charles Crockett, Philo McCullough, Fred Kohler and John T. Murray, all of whom support to a degree the four principal characters, but also share individual moments of histrionic triumph which are vitally essential to the plot's success.

Dyna, Chilkoot, Summit, Sheep Camp, Linderman, Dawson City, all of the famous points of interest along the old gold trail to the Klondike are graphically introduced, and Alaska is for the first time truthfully pictured on the screen.

"Winds of Chance" is justifiably one of the screen hits of the year and worth going a good ways to see.

ROHAN'S SALARY  
STATE AVERAGE

Appleton One of 15 Wisconsin Cities Paying More Than \$4,000 a Year

Appleton is one of the 15 cities in the third class paying the superintendent of schools more than \$4,000 a year, according to a report com-

plied by the extension division of the University of Wisconsin. Appleton pays \$4,500 to Ben J. Rohan, the superintendent of schools.

In eight of the 17 third class cities the salary is over \$5,000 the report stated. Cities which pay over \$5,000 are: Eau Claire, Janesville, LaCrosse, Madison, Manitowish, Oshkosh, Wausau and West Allis. The largest salary paid in the state is in Milwaukee, where the pay is \$9,000. Seven high schools and the entire system of

grade schools are administered by him.

All but nine of the 120 fourth class communities in Wisconsin pay their superintendents of schools more than \$3,000 a year. Forty-eight superintendents in this group also serve as principals of the high school. Neenah and Menasha, both cities in the fourth class, are among the eight cities paying more than \$4,000 a year. The second class cities, Kenosha, Racine, and Superior, pay \$6,000, \$6,000 and \$4,000 respectively.

MAIL QUESTIONNAIRE ON  
H. S. STUDENT BOARDS

To learn what student governing bodies in the 25 larger high schools in Wisconsin are doing is the purpose of a circular letter to be sent out by the student council of Appleton high school, according to John Catlin, president of the council.

The Appleton plan of student government will be outlined in the letter

and the other schools will be asked to suggest ways of making the Appleton student council more efficient. Carl Nelson will draw up the letter.

# TO REOPEN WARD DIVISION ISSUE AFTER ELECTION

## Way Is Made Clear by Recent Adoption of Union System of Schools

Now that the union system of schools has been adopted in Appleton the issue of increasing the number of wards for the purpose of giving the city larger representation on the county board, may be revived shortly. According to Alderman C. D. Thompson, first ward, who was chairman of the committee appointed two years ago to investigate the advisability of doubling the number of wards, the matter has been allowed to slumber in view of the obstacles created by the old district school system.

What was considered the most practical way of increasing the wards was dividing each ward into two and using the present precinct division lines as the new ward boundaries. This, it was held, would cause the least trouble in the revision of public records. But because the school district boundaries also followed the ward boundary lines to a considerable extent, it was thought best to defer the project until after the adoption of the union school system.

# WATER BOARD IS WEEKS BEHIND 1926 SCHEDULE

## Procedure of Installing Mains at Property Owner's Cost Slows up Department's Work

With the adoption last year by the common council of the new policy of financing the installation of water mains by which the property owners pay for the cost up to 6-inch mains and the city assumes the cost above that size and that of the mains on street intersections and a part of corner lots, the Appleton water commission has had to proceed slowly in preparing for the 1926 construction program.

In former years the department had all the material, the pipe, hydrants and valves ordered by this time, and thereby took advantage of the favorable price quotations in the idle season. But this year the commission's hands are tied, more or less, by the fact that the city council has not yet adopted the 1926 program.

A tentative program has been passed by the council, but since the costs of the mains will henceforth be assessed against the abutting properties, it becomes necessary for the board of public works to conduct a series of hearings leading to the assessment of benefits and damages. This requires several weeks just as the procedure for installation of sewers or construction of pavements.

The water department will not be entirely unprepared for the construction season, however, for it has a small supply of 6-inch and other pipe as well as hydrants and valves on hand, and is sufficient to start the year's work. As far as is known, only 6-inch mains will be installed this year and the total mileage will

# when was your car GREASED- and who did the work?

We are taking the liberty of asking you these two pertinent questions for two reasons. The First, because of one's tendency to forget and because of the all-importance of grease toward the operation and life of your car. The Second, because we operate a greasing rack at our station, where you can have your car greased, as it should be greased and in some cases —

## LOVE TAUGHT BY SAVIOUR BETTER THAN CRUSADES

Christianity Someday Will Be Fatal to Social Evils, Holmes Says

Christianity will some day prove fatal to all social evils and the Christianity of love and brotherhood taught by the Saviour is better than all the "anti-everything movements put together," Dr. J. A. Holmes, pastor of First Methodist church declared in his sermon on Applied Christianity at his church Sunday morning. Dr. Holmes said that because early Christianity did not conduct crusades against the evils of its time does not mean that it acquiesced in slavery, poverty and tyranny. "What Christ brought into the world in the way of fundamental teachings to the permanent in man and life was of infinitely more value than mere propaganda," he said.

"I presume it is a source of disappointment to many faithful and zealous followers of Jesus Christ to find so little in His recorded teachings that bears on some of the modern and difficult problems of life," Dr. Holmes said. "Strauss complained that Christ's gospel had no word for culture or progress. 'Science, art, industry—those things which transformed the world, have no place in Christ's ideas or sympathies.'"

"A little thought will show us that it was impossible for our Lord to deliver either a general or a final gospel on anything that was involved in the unfolding or evolutive process of life. For instance, the so-called gospels of today like social service, industrial brotherhood, sanitation, internationalism and many others, are the results of His appeal to the permanent in man. Our art, science and industrial development change with the generations. Christ's message was entirely outside of time development. It is this very thing that makes it universal to all races, times and places. His philosophy has as much of an appeal to the cultured citizen of Appleton today as it had for the resident of Jerusalem, Rome or Athens of the first century. He taught that the permanent condition of successful living required both a mental and spiritual state that would place men in a true relation to God, themselves, their neighbors, their city, their nation and the world.

It is often said that applied Christianity should deal with the social, economical and political questions of the hour. Very true, but how? Certainly not through coercive measures—for that was not the spirit of Christ. Any student of the matter can show that in the primitive church there was a complete silence on the ordinary social, economical and political problems that ferment us today. No one can deny that the condition during our Lord's time were bad enough. Many things such as slavery and the social evils existed, but our Lord never taught an anti crusade. The Jewish preachers had little to say about political redemption, although their nation was crushed. Our Lord moved in the midst of extreme poverty, but neither he nor His apostles showed much interest in economic questions such as we have today. Certain arguments have been based on these facts to show the utter impracticability of Christianity as a system of life. Because early Christianity conducted no crusades in the modern sense of the term against evils of its time, does not mean that it acquiesced in slavery, poverty and tyranny. My conviction is that it is finally going to prove fatal to all social evils.

"What Christ brought into the world in the way of fundamental teachings to the permanent in man and life, was of infinitely more value than mere propaganda. In other words, what He taught in the way of love and brotherhood has been better than all the anti-everything movements put together.

"A man with the love of God in his heart is interested in the welfare of his neighbor—the moral uplift of his community—in parks, playgrounds, public schools—in everything that contributes to the happiness and welfare of his neighbor. The observance of law—civil cooperation—the city beautiful.

"A broad-minded Christian is tolerant of all other religious faiths and creeds. He recognizes antecedent tendencies and temperaments. He steadfastly frowns on childish antagonisms and religious rivalries."

## NEW ARTERIAL HIGHWAY SIGNS GO ON STREETS

City Repaints Red Signs so They Will Conform With New State Law

The red arterial highway signs in Appleton are rapidly being supplanted with the new standard white signs which the state highway commission has ordered for all municipalities. The change was authorized by the

state legislature with a view of obtaining uniformity of markers for arterial highways and thus eliminating confusion for strangers.

Employees of the Appleton street department are changing the signs, and it will not be long before the last of the red signs will be replaced with white ones.

It was not necessary to purchase new signs, for the city was fortunate to have the standard octagonal signs. All that was required was to paint the signs white. The expense of having a sign painter was saved by the fact that the signs in use here have milled, or sunken, letters. Any unskilled laborer can thus paint the signs over. At first the entire sign is given a white background and then a narrow brush is applied to the grooves to paint the letters black. All the work is being done in the

street department barns. Six white signs were purchased at the start and put up in place of the red ones. The latter signs were then painted at the barns and again used to replace other red ones. Thus no arterial street was left without a sign at any time.

## HELP SAVE WILD LIFE, SPEAKER URGES CLUBMEN

Milwaukee Newspaper Writer Tells Menasha Club How Resources Are Lost

Menasha—In an address before the Menasha club Saturday night at its twenty-sixth annual banquet at Hotel Menasha, F. W. Luenning, out-door editor of the Milwaukee Journal, made a plea for the protection of wild life and the conservation of the country's natural resources. He emphasized the necessity of concerted action and predicted dire results if the present policy is continued.

More than 100 members of the club were present. O. H. Plenzke was toastmaster and was introduced by George Santa, Jr., vice president. Mr. Luenning was accompanied by several of his associates on the Journal editorial staff.

Mr. Luenning's subject was "Trail's End." He said outside the harbor of the city of New York there floats a band of oil five miles wide and 200 miles long. It was created by dumping waste overboard. Up and down the Atlantic coast there are great blocks of migratory birds, particularly ducks and geese. When they light in this oil they are incapable of flight and die of starvation or sink to the bottom. It is their trail's end.

"On the Pacific coast," said Mr. Luenning, "is the old 'Wing thing' in the world, the redwood tree. We use it in our houses and in our ships. Finally we succeeded in getting it to reserve some of them in a national forest. We were getting along nicely when the old, old story was repeated on the coast. Fire started from a cigarette or cigar and burned a tract ten miles wide that would reach from Washington to Denver.

"Let us get into Wisconsin. Trail's end for the forest, trail's end for the forest, trail's end for the forest. In Wisconsin there is a place called Horicon. Some 50 or 60 years ago they had a dam and that dam formed a lake one of the largest inland bodies of water in the United States. Spring rains came and flooded the farmers' lands. Farmers appealed for the removal of the dam and the sheriff was ordered to blow it out with dynamite.

"A strange thing happened. Horicon marsh was created. It was rich in bird food and no where in Wisconsin was there such a place for ducks and geese and all migratory birds. Never was there such a paradise for hunters."

Mr. Luenning then told how Chicago promoters appeared on the scene and through a drainage system endeavored to convert the marsh into farmlands. Much litigation followed. A ditch 14 miles long was dug from the south end to the north end. The speaker said he saw 50,000 acres of cat tails on one of his visits to the marsh. Fires sweep over the marsh annually eating into the ground and destroying its fertility until the whole tract is charred and desolate. Mr. Luenning said there was not a single square foot of farm land produced and that the drainage project which destroyed the tract never contributed one dollar to Wisconsin. Trail's end for it.

After calling attention to the game preserve on the Mississippi river between Wisconsin, Iowa, and Minnesota which contains thousands of acres and which was recently converted into a national park through the efforts of William Dilg of Isaac Walton league the speaker touched on wild life and the natural resources in Northern Wisconsin and Canada. The destruction of the forests he said is drying up the streams and some of the industrial plants are beginning to feel the effects of it in the way of less water power. The pollution of the streams is killing the fish he said. Mr. Luenning related many personal experiences with wild life in Northern Lake park and on the Flambeau river and in Canada. At the close of the address Mr. Luenning was made an honorary member of the club.

# Hinshaw Company Sure To Please, Waterman Avers

SCENE FROM MARRIAGE OF FIGARO

Mozart's comic opera, "The Marriage of Figaro," played by the Hinshaw opera company will be heard at the Lawrence Memorial chapel on Tuesday night. The company has been acclaimed as one of the foremost in Europe and America today, and has had great success in its portrayal of the comic operas of other nations. One of its best productions, it is said, is the Mozart opera to be given here on Tuesday.

Dean Carl J. Waterman, of the Lawrence conservatory said of this opera, "The performance of Mozart's tuneful opera, 'The Marriage Figaro,' by the Hinshaw Opera company will be one of superior artistic quality. The cast is a distinguished one with grand opera artists of recognized ability and wide experience in the opera houses of Europe and America. This opera is one of Mozart's masterpieces, and is replete with beautiful melody and sparkling dialogue. I feel certain that music lovers at Appleton who are able to witness this performance will be charmed by the superb singing and acting the orchestral accompaniment and the excellent staging of the great opera. The opera will be sung in English."

## DRINK WATER TO HELP WASH OUT KIDNEY POISON

If Your Back Hurts or Bladder Bothers You, Begin Taking Salts

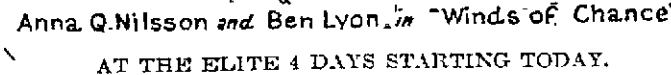

When your kidneys hurt and your back feels sore don't get scared or proceed to load your stomach with a lot of drugs that excite the kidney and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which helps to remove the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; can not injure; makes a delightful effervescent lithia water drink which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

MONDAY

The Hope of Immortality

Read Jn. 11:20-27. Text 11:25. I am the resurrection, and the life: he that believeth on me, though he die, yet shall he live.

Prayer—O Lord Jesus Christ, who by Thy death didst take away the sting of death: grant unto us, Thy servants, so to follow in faith, where Thou dost lead the way, that we may at length fall asleep peacefully in Thee, to awaken in Thy likeness, through Thy mercy, who livest with the Father and the Holy Ghost, one God, world without end. Amen.

RECORD CROWD PACKS ARMORY FOR AUTO SHOW

Dealers Happy Over Huge Interest in Annual Exhibit of Automobiles

One of the largest crowds ever seen at a community enterprise in Appleton packed the armory Saturday evening and Sunday afternoon to see the last word in up to date car models now on exhibition at the third annual auto show of the Appleton Automotive association.

Local dealers said they were well pleased with the attendance, especially as the weather over the weekend was not all that could be desired. Monday is the final day of the exhibition and it is expected that many more persons will take advantage of the favorable weather and this last opportunity to see the exhibits.

School children were admitted to the show free Saturday afternoon. The armory is beautifully trimmed with decorations which conform to the brilliant array of new cars. Music is furnished every afternoon and evening.

About 35 cars are on display. Dealers who are cooperating in the show and the cars they are exhibiting are as follows: Rosenthal and Wagner, Studebaker and Pierce Arrow; St. John Motor Car Co.; Chrysler; Kutz Motor Car Co.; Star; O. R. Klehn; Willys Knight; Overland; Humphreys and Oldsmobile; Appleton Auto Co.; Geo. and Kissel; August Brandt Co.; Ford and Lincoln; J. T. McCann Hudson and Essex; Walter Motor Company; Dodge, S. and O. Chevrolet Co.; Chevrolet; Central Motor Car Co. Buck.

The retainer wall will be built between the road and the tank to prevent the road embankment from caving in upon the tank. The Traction company is excavating for a wall that will be approximately 11 feet thick at the bottom, about 26 feet high and between 300 and 350 feet long.

About one-third of the excavation, which may take approximately seven cubic yards, has been completed.

It is not known just how long the street will be blocked, as duration of the construction work depends largely upon the frost in the earth.

STORM HALTS ATTEMPT TO OPEN HIGHWAY 26

Efforts to open the highway between New London and Appleton which were started by Outagamie-co highway crews late last week were blocked by the snow and windstorm of Sunday.

Crews had started working from both New London and this city in an effort to break through the drifts. Sunday's storm filled up places which had been dug out during the week, forcing the crews to start over again. No effort had been made to reopen the road up to Monday noon.

NEW SORORITY MEMBERS ARE ENTERTAINED

A dinner in honor of six new members of Sigma Alpha Iota sorority was given at Hotel Northern Saturday night following an initiation ceremony at the home of Mrs. H. T. Johnson, E. College-ave.

A program by new members and dancing furnished the entertainment. Guests of the active chapter were: Miss Caroline Hess, Mrs. W. E. Schuchert, and Miss Viola Bantrock. Thirty persons attended the dinner.

PREPARE FOR NEW GAS TANK

Traction Company Wants to Close Street While Work Is in Progress

The Wisconsin Traction, Light, Heat and Power company has asked the city authorities for permission to barricade a part of W. Water-st. temporarily while the excavation for the new gas tank is in progress.

It is probable that the street will be blocked to traffic between S. Oneida-st. and the city waterworks plant. There is little traffic in this area except at the Atlas mill of the Kimberly-Clark company, but access can be gained here by way of S. Jackson-st.

The retainer wall will be built between the road and the tank to prevent the road embankment from caving in upon the tank. The Traction company is excavating for a wall that will be approximately 11 feet thick at the bottom, about 26 feet high and between 300 and 350 feet long.

Markets

STOCKS LOWERING AS WEEK BEGINS

Selling Pressure Increases With Offerings Heavy on Both Accounts

New York—(AP)—Irregularly lower prices characterized the opening of the new week in the stock market. General Electric dropped 2 1/2 points; Jordan, 2 and Pierce Arrow, Baldwin Locomotive, United Fruit and Allied Chemical yielded a point or more on initial sales. On the other hand, Dupont, Schulte Stores and American Car and Foundry opened a point or so higher.

Selling pressure increased as trading progressed with offerings rather heavy for both accounts. In some quarters this was characterized as the usual "secondary reaction" which ordinarily follows the first rally coming after a sharp break such as the market experienced last week.

Professional bear traders, encouraged by their success in unsetting prices last week, again hammered the industrial shares. McCarty stores, I. broke 8 points; American Car, six; Foundation company four, and Hudson Motors, Coca Cola, Savage Arms, American Zinc, preferred, Stramberg Carbueter, National Dairy products and Ward Bakings A and B yielded two points or more before the end of the first half hour. Rails also lost ground although the recessions were not as large. Pittsburg and West Virginia yielded 2 1/2; Atlantic Coast line, 2, and Chesapeake and Ohio, New York Central, Pere Marquette and Southern Railway a point or so. Foreign exchanges opened easy. Demand sterling ruled around \$4.85-7-16 and French francs were a couple of points lower around 3.55 1/2 cents.

Extension of the decline was due in part to selling by discouraged bulls who had bought in the belief that the recent concerted support extended to the rise further. As these offerings began to come out, bear operators redoubled their pressure against various high priced shares. Nickel plate, Atlantic Coastline, American Can and Woolworth declined 7 points each. Sears Roebuck, U. S. Chest Iron Pipe and General Electric 5 1/2, to 5 1/2, foundation 4 1/2 and C. O. United Drug and Juniper 4 points. Call loans renewed unchanged at 4 1/2 per cent.

## Service Depends On System!

All the telephone lines in the city would be a great nuisance instead of a great convenience—if each phone wasn't numbered and properly connected with the central exchange.

And the street car service would be a public annoyance instead of a public utility—if the cars didn't run on regular routes and at regular intervals.

And this newspaper's Classified Section would be a community "grab-bag" instead of a community market-places if all the ads weren't divided into carefully grouped classifications and alphabetically listed under each one!

In these columns of interesting little ads you get the same sort of intelligent and necessary service that the telephone and transit company give you.

Instead of saving you minutes and your steps, as the other two utilities do, the A-B-C Classified ads save you dollars and your disposition!

## MORE ENTRIES ARE WANTED IN SCHOOL CONTEST

Publication Offers Four Prizes  
of \$500 in Playground  
Equipment

The new scoring items give 50 points in Better School competition sponsored by the Wisconsin Farmer, according to A. G. Meating, county superintendent. Fourteen schools from this county are entered and Mr. Meating is appealing to the others to enter. He hopes to have at least 30 entries from the county.

The publication is offering four prizes consisting of \$500 worth of playground equipment to winners in the contest. The contest is for the purpose of stimulating interest in the improvement of rural schools.

The new scoring items give 50 points to schools which serve warm lunches three days a week for any 60-day period and any school which has nine months of school in a year will receive 100 points. Mr. Meating said that many Outagamie county schools have 9-month school years and these must keep it up for another year to earn the 100 points.

Schools, however, have only 8 month terms, and if their school boards vote for the 9-month term at the next monthly meeting they will get the extra 100 points as the contest does not close until October.

One of the most important scoring items, the material progress score, is of more advantage to the poorer schools than those which already are very good. Mr. Meating said most of the poorer schools of the county believe they have little chance in the contest and so only the better schools are entering. The rules provide, however, that the school showing the greatest improvement gets the most points and the good school is not in a position to improve as much as the poorer school.

In the material progress score based on progress made between Jan. 1 and Oct. 1, 1926 on the basis of the Wisconsin rural school score card. The building is scored when the school enters the contest and again on Oct. 1. With 1,000 as the perfect score the good school which already has perhaps 800 points when it enters the contest naturally can not make as much improvement by Oct. 1 as can a poorer school which rates only 300 points when first inspected. If both reach the 1,000 mark, the latter school has made much more improvement. Mr. Meating said.

## PRIM AGAINST STATE RULING ON ARTERIALS

Thinks Cars on Artery Should  
Have Right of Way Over  
All Vehicles

Disapproval of recent ruling of the state highway commission that an automobile after coming to a full stop before entering or crossing an arterial street, has the right of way over automobiles approaching from the left on arterial highway, is expressed to Chief George T. Prim of the Appleton police department.

Chief Prim also advocates compelling motorists to stop before entering a state trunk or widely travelled highway, whether the roads are in the city or in a deserted part of the country. The chief said several accidents have been caused by the failure of drivers to stop before entering on heavily travelled highways. Often the main roads are screened by trees or high bushes so that even the most careful driver on the main highway is unable to see a car approaching from the side, he said.

## BIG BUSINESS METHODS USED IN COURTHOUSE

Further proof that Appleton ranks with the larger cities of the country in up-to-date business methods was established when a representative of the Brown Paper Co., an eastern concern, visited the courthouse recently. The easterner expressed surprise that green ink was used in the clerk of courts office, here, but stated that it is being used in all of the more important clerk of court offices of the country. However, he did not expect to see it here, he said.

Many queries have been addressed being on an arterial highway gives a driver the right to be reckless or careless. He must be as careful as motorists on any other highway, according to the chief.

Chief Prim also advocates compelling motorists to stop before entering a state trunk or widely travelled highway, whether the roads are in the city or in a deserted part of the country. The chief said several accidents have been caused by the failure of drivers to stop before entering on heavily travelled highways. ## HAREFOOT CLUB TO BRING 2 ORCHESTRAS

Two orchestras are to accompany the Harefoot club to Appleton when it will present "Mary Ann" on April 7 at the Fischer Appleton theatre. One orchestra will play in the pit continuously throughout the course of the play and consists of 20 members. A stage orchestra of 10 pieces will be a special feature and will play its numbers between acts and before the regular performance. Herbert J. Allen is director of music for the production. Several novel stunts will be given

to Harry Shannon, clerk of courts, and Sidney Shannon, deputy, as to the consistent use of the green-colored ink on the court papers. Both said that the green ink lasts longer, and that it makes better records, besides being distinctive. Miss Marie Ziegenhagen, county treasurer, also uses green ink.

on Standings

Appleton is one of the eight Wisconsin cities that have had detailed reports made of the findings of the Better Cities contest by Aubrey W. Williams, general secretary of the Wisconsin Conference of Social Work, according to a report made by the conference. The others are Eau Claire, Chippewa Falls, Ashland, Sheboygan, Janesville, Oshkosh and Ladysmith. Fond du Lac will be next to receive its report. Mr. Williams will visit Fond du Lac on March 9 and 10.

Walter Kohler, president of the Kohler company formerly president of the board of regents of the University of Wisconsin, has been appointed chairman of finance of the Wisconsin Conference of Social Work, and has accepted the position, it was said.

Plans are being made for the annual meeting of the conference in which all cities will participate next fall in Milwaukee. Jushoe M. B.

Rosenberry, president, announced. The groups to be represented are public administration, city planning, public health, recreation, library, mental hygiene, social welfare and rural work.

**POSTPONE MEETING**  
The regular meeting of the county health committee scheduled for Saturday was postponed because of the absence of Miss Marie Klein, county nurse. Miss Klein is visiting at the home of her parents in Weyauwega.

Roy Wood of Chicago, formerly of Appleton, is spending the week in Appleton.

**THE GIRL SCOUTS**  
and the Campfire Girls are two national organizations working side by side in the cause of healthy, happy, intelligent womanhood, training the minds of eager girls for greater service, training their bodies for the destiny that shall be theirs. All honor to them!

Wise mothers of girls in their early teens urge them frankly to take Lydia E. Pinkham's Vegetable Compound. Mrs. Alice Louthan, Route 2, Charleston, Ill., says, "I recommend Lydia E. Pinkham's Vegetable Compound to other mothers with girls who are not as strong as they should be." adv.
